JASON STAINER

Junior Front-End Developer • Bournemouth, Dorset

07834 770642 | pt.jasonw86@hotmail.co.uk

Portfolio: https://jason-portfolio-site-version2.netlify.app/ | GitHub: https://github.com/jGStain

PROFILE

Aspiring junior front-end developer with hands-on experience building responsive web applications using HTML, CSS and JavaScript. Projects include a weather application using live API data and an in-progress job application tracker with dynamic JavaScript interfaces. Brings substantial professional experience in regulated investigations, quality control, operational improvement and team leadership. Seeking a first front-end development role where technical skills, attention to detail and a strong record of problem-solving can contribute to a development team.

TECHNICAL SKILLS

HTML5 • CSS3 • Responsive / mobile-first design • JavaScript (ES6+) • DOM manipulation • Fetch API and JSON • Git • GitHub • Browser developer tools • Accessibility fundamentals

SELECTED DEVELOPMENT PROJECTS

Weather App | JavaScript, HTML, CSS, API integration

- Built a weather application that retrieves live weather information and displays current conditions and a multi-day forecast.
- Worked with asynchronous requests, JSON data and dynamic DOM updates to present information in the interface.

Code: https://github.com/jGStain/Weather-App

Job Application Tracker | JavaScript, HTML, CSS — in progress

- Building a mobile-first application to display job applications, their status and application history.
- Created reusable JavaScript logic to render application cards from structured data, including company initials and formatted dates.

Additional JavaScript projects | To-Do List • Quiz App • Rock Paper Scissors

- Developed interactive browser projects to practise event handling, user interactions and JavaScript fundamentals.

RELEVANT PROFESSIONAL STRENGTHS

- Problem-solving and evidence analysis: investigated complex cases using information from multiple systems and stakeholders.
- Quality and attention to detail: held a quality-control leadership role and worked to regulated standards and deadlines.
- Process improvement: identified and proposed a change at Barclays that eliminated over eight hours of unnecessary weekly meetings.
- Collaboration and leadership: previously managed teams, coached colleagues and coordinated technical and operational work.

PROFESSIONAL EXPERIENCE

WNS Assistance | October 2022 – Present

Repair Management | April 2024 – Present

- Coordinate repair progress with garages and repair centres, follow up on outstanding work and keep repair cases moving.
- Monitor updates across multiple cases and maintain accurate information to support timely follow-up and resolution.
- Handle inbound repair-status enquiries, gathering information and communicating progress clearly.

Complaints Handler | October 2022 – March 2024

- Investigated complex complaints across four client accounts, reviewing records, gathering evidence and making reasoned decisions within regulatory requirements.
- Contributed to reducing the outstanding complaints caseload from 789 to approximately 30 (over 96%) over 18 months while maintaining investigation quality.
- Produced clear final-response documentation and monitored case data, priorities and deadlines across multiple client requirements.

Quick Car Finance | Complaints Executive | August – October 2022

- Investigated used-vehicle and finance complaints, obtaining evidence from lenders and dealerships and applying FCA requirements and relevant consumer legislation.

Barclays | Customer Care Associate | November 2018 – July 2022

- Investigated complex cases using information from multiple systems, exercising judgement and documenting outcomes in a regulated environment.
- Analysed customer data to identify missed rewards, corrected affected accounts and escalated findings to relevant stakeholders.
- Identified more than eight hours per week lost to unnecessary meetings and proposed a revised process that was implemented; also trained and coached colleagues.

Barclays | Complaints Handler (Temporary) | September 2017 – November 2018

- Reviewed evidence and investigated packaged-bank-account complaints against established procedures; supported team workload planning and colleagues as a subject-matter expert.

Phoenix Property Maintenance | Contracts Manager | November 2015 – March 2017

- Planned property inspections, quotations and repair work; coordinated staff and subcontractors, controlled material spending and managed safety requirements.
- Supervised six full-time staff and multiple subcontractors, balancing operational priorities, deadlines and compliance training.

Earlier experience | Barclays, Everyone Active, Oxley Sports Centre, SPC International | 2004–2015

- At SPC International, progressed to Head of Quality Control and later led eight engineers and testers on an IBM contract, overseeing inspection, KPIs, deadlines and performance reporting.
- At Oxley Sports Centre, held operational management and training roles covering recruitment, rotas, staff development, budgets and reporting.

EDUCATION

BTEC National Diploma, Sports & Exercise Science — Yeovil College | GCSEs including English Language (A) and Mathematics (B)
