ABOUT ME

Aspiring Front-End Developer with a strong foundation in HTML, CSS and JavaScript, currently building real-world projects to develop practical software engineering skills. Experienced professional with over 20 years of problem-solving, stakeholder communication and process improvement experience across financial services, customer operations and management roles.

Passionate about creating clean, responsive and user-friendly web applications, with a proven ability to learn independently, analyse complex problems and deliver effective solutions. Seeking an entry-level Front-End Developer position where I can contribute, continue learning and grow within a development team.

TECHNICAL SKILLS

LANGUAGES:

- HTML5
- CSS3
- JavaScript (ES6+)

DEVELOPMENT TOOLS:

- Git
- GitHub
- Visual Studio Code

FRONT-END DEVELOPMENT:

- Responsive Web Design
- DOM Manipulation
- Local Storage
- API Integration
- Accessibility Fundamentals

Currently Learning:

- React

PROJECTS

Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a personal portfolio website to showcase development projects and technical skills.
- Focused on responsive design, accessibility and clean user experience principles.

Rock, Paper, Scissors Game | HTML, CSS, JavaScript

- Developed an interactive browser-based Rock, Paper, Scissors game featuring dynamic score tracking and real-time game feedback.
- Implemented game logic using JavaScript functions, conditional statements and decision trees to determine round outcomes.
- Generated computer selections using randomisation techniques to create an unpredictable gameplay experience.
- Applied event-driven programming principles to capture player choices and update the user interface dynamically.
- Managed application state through score tracking and DOM manipulation to display live game results without page reloads.
- Designed a responsive and engaging user interface using semantic HTML and modern CSS layout techniques.

To-Do List Application | HTML, CSS, JavaScript | Local Storage

- Developed an interactive task management application allowing users to create and remove tasks through a responsive user interface.
- Implemented persistent data storage using Local Storage, ensuring tasks remain available between browser sessions.
- Utilised JavaScript DOM manipulation to dynamically generate and update task elements without requiring page reloads.
- Applied event delegation techniques to efficiently manage user interactions and task completion functionality.
- Designed and built a mobile-first responsive interface using semantic HTML5 and modern CSS.
- Managed application state using JavaScript arrays and browser storage APIs to synchronise data and user interface updates.

Interactive Quiz Application | HTML, CSS, JavaScript

- Developed a fully responsive quiz application featuring multiple quiz categories.
- Implemented random question generation to provide a different experience each time the application is used.
- Created score tracking and user feedback functionality using JavaScript.
- Organised code using modular JavaScript principles to improve maintainability.
- Designed and built the user interface using semantic HTML and modern CSS.

Weather Application | HTML, CSS, JavaScript, REST API

- Built a weather application that retrieves live weather data from a third-party API.
- Implemented asynchronous JavaScript using Fetch API.
- Created a responsive user interface suitable for desktop and mobile devices.
- Added error handling and user-friendly feedback for invalid searches.

CAREER HISTORY

October 2022 – Present

Senior Complaints Handler– WNS Assistance

- Investigated complex customer issues by gathering information from multiple data sources and identifying root causes.
- Analysed trends and patterns within complaint data to improve customer outcomes.
- Produced detailed written reports and resolutions while maintaining regulatory compliance.
- Worked independently to manage competing priorities and meet strict deadlines.

August 2022 – October 2022

Complaints Executive – Quick Car Finance

- Dealing with complaints from customers who have recently purchased a second hand car.
- Liaising with Customers, Finance Lenders and Dealerships to collect evidence and come to a resolution.
- Working to guidelines set out by FCA, Sales of Goods Act 1979 and the Consumer Rights Act 2015.
- Help to set up new warranties purchased as part of customers finance deal.

November 2018 – July 2022

Customer Care Associate – Proactive Customer Care Team, Barclays House Poole

- Agent dealing with customer complaints, concerns and queries alongside proactively reaching out to customers to improve their experiences and create advocates for the bank. I worked to exceed customer's expectations and help my team and the department as a whole.
- Experience dealing with difficult customers and handling complex complaints. I have a proven ability to handle challenging conversations well and am confident using my own initiative. To gather evidence from multiple sources to come to the correct resolution.
- Knowledge and experience from working on a wide range of proactive campaigns. Confident in trying new approaches and working through test and learn periods to identify the best strategies to achieve results. Happy and willing to work outside of my comfort zone.
- Trusted to carry out training and coaching for my peers and new members of staff as a reliable and knowledgeable individual. I am passionate about helping others and coaching them to improve their work and confidence.

September 2017 – November 2018

Complaints Handler, Barclays House Poole (Temp Contract)

- Investigate complaints from customers in relation to the mis-selling of package bank accounts.
- Access a variety of forms of evidence from multiple sources ranging from the customer, to third parties such as CMC's, solicitors and Barclays own internal evidence.
- To know and follow several strict procedure guides for each complaint received.
- To have knowledge of package bank accounts, Barclays procedures and operational areas relating to Package Bank Accounts.
- To be accountable for my investigation and outcome of every customer complaint I investigate.
- Responsible for managing my teams holiday tracker and staff holiday requests.
- Responsible for managing my teams work load and case stock.

- To provide Subject Matter Expert level support to other members of my team.
- To communicate with customers to ensure we have all the information possible to make the correct decision and communicate that decision to the customer in a way they can understand.

November 2015 – March 2017

Contracts Manager, Phoenix Property Maintenance, Dorchester

- Managed the inspection, quotations and repair of properties.
- Carried out surveys of properties with reports and remedial works as necessary.
- Ensured all work is allocated to the appropriate sub-contractor as and when the work cannot be carried out by one of our in-house Tradesmen.
- Prepared work specifications and quotes for Reactive work to be carried out by in house tradesman and sub-contractors.
- Managed all spends on materials up to an agreed level while maximizing cost efficiency.
- Made sure all Health & Safety practices are being adhered too from correct PPE to Risk Assessments.
- Managing all employees Health & Safety e-learning modules, making sure all are completed and renewed by all staff.
- Building and maintaining relationships with Estate Agents and Letting Agents.

July 2015 – October 2015

Remediation Case Handler, Barclays House Poole

- Investigate cases from customers who felt they were mis-sold PPI.
- Investigate a variety of evidence from multiple sources ranging from the customer, to third parties such as CMC's, solicitors and Barclays own internal evidence.
- Using several different operating systems to corollate all available data and evidence for each case to come to the correct outcome.
- To know and follow several strict procedure guides for each complaint received.

March 2015 – July 2015

Sales Consultant – Everyone Active

- To promote the centre and its products/services, to engage with new and current customers about memberships and services, to attract new customers to the centre and hit KPI sales targets every month.

February 2011 – March 2015

Staff Trainer/Duty Manager/Membership Manager/Retail Manager/Line Manager, Oxley Sports Centre, Sherbourne

- Manage training for all staff in first aid, lifesaving, equipment use and setup.
- To run weekly training sessions, both teaching and refreshing staff knowledge on westside first aid, dry side first aid, lifesaving techniques and lifeguarding theory to ensure staff passed their 2 yearly assessments.
- Managing the day to day operations of the centre which included a 25m swimming pool, gym, café, sports hall, squash courts, dance studio and a full-sized AstroTurf pitch.
- Responsible for the managing, monitoring and set up of all membership contracts at the centre.
- Responsible for the purchase and selling of equipment from goggles to swimming costumes. I had to manage the retail budget and maximise profits where possible.
- Responsible for Health & Safety, from Risk Assessments to COSHH.
- Organising staff rotas for all lifeguards at the centre. I would also have appraisals every year with the lifeguards to discuss any issues I had and any they had.
- Responsible for the hiring of all full-time lifeguards as well as lifeguards on a zero-hour contract.

- Account reports for income taken throughout the whole centre every week to show what area of the centre took over the week and present it to the Burser.
- To promote and deliver excellent customer service.

November 2009 – February 2011

Team Leader for IBM Contract, SPC International, Wincanton

- Manage a team of 8 engineers and testers working on IBM ATM machines.
- Manage KPI's and deadlines for all repairs, refurbishes and maintenance of machines in the IBM contract.
- Presenting regular reports to my Manager to then present to IBM.

February 2006 – November 2009

Head of Quality Control, SPC International, Wincanton

- Responsible to the testing, examination and final inspection of all repaired machines before they were sent back to our customers.
- Write up monthly performance reports on the quality of repairs being done.
- Help maximise quality by changing operational procedures where possible.

October 2004 – February 2006

Workshop Operative, SPC International, Wincanton

- Clean and repair snikey key boards and touch screens sent in from customers.
- Moved to the IBM contract where I would dismantle, clean, repair and re-assemble various components from printers to card readers that make up a ATM machine.
- Would check and replace fuses and circuits if needed.

February 2003 – August 2004

Warehouse operative, Screwfix Direct, Yeovil

- Pick and pack orders which came in from the call centre. Then moved on to the loading of the lorries making sure the right assigned parcel went to the correct courier.
- Part time job while at College.

April 2001 – February 2003

Crew Member, McDonalds, Yeovil

- Serving customers by taking their food orders
- Worked the Drive-Thru que
- Part time job while at School & College.
